

Jesús M. Rueda-Becerril

Ph.D.

Profile

I am a trained astrophysicist with experience in industry. I have expertise in programming, data science, data analysis, and problem-solving and I am creative, innovative, and analytical. I enjoy working both individually and collaboratively and I am an effective communicator in both English and Spanish. I have extensive experience debugging, testing, and maintaining sophisticated code in scientific and business arenas. I have strong programming skills in multiple languages like Python, Fortran, C/C++, Shell, Julia, Java, SQL, and I am experienced in managing version control systems (e.g., git). Additionally, I have experience in high-performance computing (HPC) and data science and a strong foundation in data analysis, machine learning, and statistical modeling. In my free time, I like to catch up with the most recent discoveries about the mysteries of our universe and I am an avid climber.

Education

Ph.D. in Physics

Universitat de València, Spain

ADVISOR: Prof. Miguel A. Aloy & Dr. Petar Mimica.

THESIS: [Numerical treatment of radiation processes in the internal shocks of magnetized relativistic outflows](#)

Oct. 2011 – Jul. 2017

Excellent *cum laude*.

M.Sc. in Physics

Universidad Michoacana de San Nicolás de Hidalgo, Mexico

ADVISOR: Prof. José A. Cervera

THESIS: *Study of TOV stars with the SPH method*

Aug. 2009 – Sep. 2011

B.Sc. in Physics

Universidad Autónoma del Estado de México, Mexico

ADVISOR: Prof. Francisco S. Guzmán

THESIS: *Numerical solution of null geodesics for the generation of gravitational lenses produced by spherically-symmetric and static spacetimes*

Aug. 2004 – Dec. 2008

Technical Skills

Programming Languages: Fortran, Python, Shell Scripting, C/C++, R, Java, Julia, SQL (PL/SQL, PostgreSQL)

Miscellaneous: Git (GitHub, Bitbucket), \LaTeX , MPI, OpenMP, OpenACC, HDF5, Mathematica, Maple, Docker, Jenkins, Splunk, Jira, Kafka, Visit, Paraview, Job Scheduling (SLURM, PBS)

Python Ecosystem: Numpy, Pandas, Matplotlib, Scipy, Astropy, Scikit-learn, Assertpy, Jupyter

Research Scientist: Fellowships: 4 Federal from Mexico, 1 from Spain; Grants: 1 from NASA; Publications: 3 first author, 6 co-author, 6 Conference Proceedings ([ORCID profile](#)).

Professional Experience

Software Engineer (Remote)

Paychex (on contract through Mindex), Rochester NY, USA; based in Seattle, WA, USA

Apr 2022 – Present

- Contribution on building essential blocks for the infrastructure of QTC+ Process by performing data analysis and develop sophisticated PL/SQL scripts.
- Collaboration on developing, and deploying Spring boot services in Java to transfer large volumes of data with Kafka.
- Expertise on using Jenkins automation server, Docker and Podman containers, and OpenShift orchestration tool.
- Expertise on continuous integration by being involved at the different stages of the process: developing micro-services, developing building tools, and developing automated test tools.
- Continuously communicating with stakeholders to ensure developers efforts are aligned with requirements and standards.
- Member of a Scrum team, following the Agile methodology using Jira.
- Mentoring junior developers and helped grow the team.

Postdoctoral Research Associate

Feb 2021 – Apr 2022

Rochester Institute of Technology, Rochester, NY, USA

- Led a team of specialists on a NSF-sponsored project to upgrade the HPC code PatchworkMHD, using state-of-the-art numerical techniques to model supermassive black hole binaries.
- Added a new feature (spin) to PatchworkMHD, making a more realistic binary black hole simulations, without impacting runtime.
- Debugged, benchmarked, and tested the scalability of PatchworkMHD.
- Version control (git) administrator of PatchworkMHD.
- Worked alongside a graduate student to develop a modified gradient descent (deep learning) algorithm on top of the Paramo code to model observations from Fermi-LAT telescope with.
- Mentored graduate students.

Postdoctoral Research Fellow

Oct 2018 – Nov 2020

Purdue University, West Lafayette, IN, USA

- Authored and co-authored 3 publications by designing, and developing the open-source code Paramo, a numerical code in Fortran, optimized with OpenMP.
- Obtained a NASA grant to explain the origin and nature of radiation from active galaxies. In this project I led a small team to develop numerical and statistical models for objects observed with NASA Fermi-LAT space telescope.
- Mentored three graduate students (1 M.S. and 2 Ph.D.).
- Calculate the loss of energy due of high-energy particles due to interactions spectrum and evolution in the context of gamma-ray burst afterglows by developing sophisticated, and OpenMP optimized, numerical method.
- Contributed to the development of statistical models of the COVID-19 outbreak at the beginning of the pandemic along with scientific infographics and blogposts for Spanish-speaking populations to stop the spread of misinformation.

Postdoctoral Research Fellow

Jan – Sep 2018

Universidad Michoacana de San Nicolás de Hidalgo, Morelia, Michoacan, Mexico

- Generated training data for a support vector machine by developing a Python script that would process images of spinning black holes generated by the numerical code GRTrans.
- Developed an open-source data analysis and visualization tool for radiative astrophysics.
- Organized a workshop to train graduate students in the use of the high-volume data storage tool HDF5.

Graduate Research Assistant

Oct 2011 – Jul 2017

Universitat de València, Burjassot, Valencia, Spain

- Published 2 first-author papers, participated in international meetings and co-authored several papers/proceedings, by running and upgrading the scientific numerical code C-SPEV to apply the *internal-shocks* (IS) model to simulate blazar flares.
- Analyzed simulations with data from NASA telescopes by performing exploratory data analysis on data from the telescopes.
- Identified spectral signatures of magnetization in blazar spectra by employing data analysis skills, statistics and machine learning (linear and non-linear regression).
- Developed analysis tools in Julia. Version control (git) administrator of C-SPEV.
- Both cyclotron and synchrotron radiation from non-relativistic to ultra-relativistic charged particles were considered in my simulations by implementing in C-SPEV a sophisticated numerical tool that could calculate both discrete and continuous spectra.
- Included low energy particles to the statistical system in the IS model, without impacting simulation runtime, by implemented complex numerical integration methods and fitting into C-SPEV.

Research Grants

NASA Fermi Cycle-12 Guest Investigator Program

Grant #121077

A simple model to understand the blazar sequence, PI: Giannios, D., Co-I: **Rueda-Becerril, J. M.**

2019

Grants and Fellowships

Oct. 2018 – Nov. 2020: Fellowship from the Mexican Federal Government for international postdoctoral studies awarded by the National Council of Science and Technology (CONACyT).

Jan. – Sep. 2018: Fellowship from the Mexican Federal Government under the *Program for the Professional Development of Higher Education Institutions*, awarded by the Secretariat of Public Education.

Sep. 2014 – Aug. 2016: Fellowship from the Mexican Federal Government to study abroad awarded by the National Council of Science and Technology (CONACyT).

Oct. 2011 – Jun. 2014: Fellowship *Santiago Grisolia* awarded by the Council of Education, Research, Culture and Sport of the Valencian Community, Spain.

Sep. 2009 – Aug. 2011: Fellowship for MSc studies at the Institute of Physics and Mathematics, Universidad Michoacana de San Nicolás de Hidalgo, granted by the Mexican Council of Science and Technology (CONACyT).

Jun. – Aug. 2007: Fellowship for a temporary stay (3 months) in a national research center under the *XVII summer of scientific investigation program* awarded by the Mexican Academia of Science.

Awards

Marcos Moshinsky Award: for *Best Poster* presented at the IWARA 2020 Video Conference, Mexico City, 6 – 12 September 2020.

Lic. Juan Josafat Pichardo Cruz Award: for finishing and defending a licentiate thesis within a year after completing the undergraduate credits, granted by the Universidad Autónoma del Estado de México, 2009.

Invited Talks

Morphology of the spectra from numerical simulations of the internal shocks model for blazars

Astrophysics Seminar, Purdue University, West Lafayette, IN, USA, February 4, 2019

Numerical simulations of the internal shocks model in magnetized relativistic jets of blazars

DATA group weakly Seminar, Instituto de Astronomía, UNAM, Mexico City, Mexico, June 19, 2018

Numerical treatment of non-thermal radiation in the internal shocks model for blazars

Weekly Seminar, Instituto de Física y Matemáticas, Morelia, Mexico, March 2, 2018

Numerical simulations of the internal shock model in magnetized relativistic jets of blazars

IVICFA's Fridays: Computation in Physics, IFIC, Paterna, Spain, October 17, 2014

Meetings and conferences

Contributed Talks.....

Simulations of supermassive binary black holes accretion dynamics in the spinning case

APS April Meeting 2022, New York City, NY, April 9–12, 2022

A numerical approach to the Klein-Nishina corrections of radiative cooling in relativistic outflows

APS April Meeting 2021, April 17–20, 2021

The blazar sequence revised

9th International Workshop on Astronomy and Relativistic Astrophysics, Video Conference, September 6–12, 2020

<https://www.youtube.com/watch?v=BAZNWLNT69M>

Influence of the magnetic field on the spectral properties of blazars in the internal shocks scenario

Extreme-Astrophysics in an Ever-Changing Universe, Ierápetra, Greece, June 16–20, 2014

Numerical study of broadband spectra caused by internal shocks in magnetized relativistic jets

XXXIV Biennial meeting of the Royal Spanish Society of Physics, Valencia, Spain, July 15–19, 2013

Poster Sessions.....

A numerical approach for radiative cooling in relativistic outflows

9th International Workshop on Astronomy and Relativistic Astrophysics, Video Conference, September 6–12, 2020

Marcos Moshinsky Award for Best Poster. <https://www.youtube.com/watch?v=0TJiKg7kOPI>

Numerical simulations of the internal shock model in magnetized relativistic jets of blazars

Swift: 10 years of Discovery, Rome, Italy, December 2–5, 2014

Numerical study of broadband spectra caused by internal shocks in magnetized relativistic jets

The Innermost Regions of Relativistic Jets and Their Magnetic Fields, Granada, Spain, June 10–14, 2013

Teaching & Mentoring Experience

Zachary Davis [8]

Graduate student, Department of Physics and Astronomy, Purdue University

Mentoring

2018 – 2022

Amanda O. Harrison [5]

Graduate student, Department of Physics and Astronomy, Purdue University

Mentoring

2018 – 2020

Hao Zhang [4]

Graduate student, Department of Physics and Astronomy, Purdue University

Mentoring

2018 – 2019

Thermodynamics (Graduate Level)

Instituto de Física y Matemáticas, Universidad Michoacana de San Nicolás de Hidalgo

Guest Lecturer

Jun 2018

Professional Development

High Performance Computing on Frontera

Jason Allison et al., TACC, Austin, TX, USA, May 20, 27 and June 3, 2021

Lecture

Writing Winning Grants

Dr. Lauren Broyles, Purdue University, West Lafayette, IN, USA, November 7, 2019

Lecture

XSEDE HPC Workshop: Summer Boot Camp

John Urbanic, Purdue University, West Lafayette, IN, USA, June 3 – 6, 2019

Workshop

Data Analysis and Machine Learning with Python

Dr. Alejandro Torres, Universitat de València, Burjassot, Spain, February 7 – 16, 2017

Workshop

Numerical Relativity Simulations of BBH Coalescence Using the Einstein Toolkit

Dr. Vassilios Mewes, Universitat de València, Burjassot, Spain, July 6 – 7, 2016

Workshop

No. of hours: 8

The Universe in the Light of PLANCK and BICEP2

Prof. Nick Mavromatos, Universitat de València, Burjassot, Spain, May 23 – 16, 2014

Lecture series

No. of credits: 2

Dark Matter

Prof. Alejandro Ibarra, Universitat de València, Burjassot, Spain, September 23 – 27, 2013

Lecture series

No. of credits: 2

International Cargèse School on Cosmic Accelerators

Institut d'Études Scientifiques de Cargèse, Cargèse, France, April 23 – May 8, 2013

Summer school

Introduction to C++ Programming

Dr. Jacek Generowicz, Universitat de València, Burjassot, Spain, April 9 – 12, 2012

Workshop

No. of credits: 6

Numerical Relativistic Astrophysics

Prof. Luciano Rezzolla, Universitat de València, Burjassot, Spain, March 27 – April 4, 2012

Lecture series

No. of hours: 9

Fortran for Scientific Computing

HLRS, University of Stuttgart, Stuttgart, Germany, Mar. 5 – 9, 2012

Workshop

No. of hours: 33

Certifications and Credentials

Mathematical Foundations of Machine Learning

Udemy, [Credential ID: UC-605df108-ae80-4297-8c8f-6bc15b967511](#)

Python for Statistical Analysis

Udemy, [Credential ID: UC-e8557ac8-13f9-41bf-ab46-f196a041b725](#)

Python Fundamentals

DataCamp, [Statement of Accomplishment #403,521](#)

Data Manipulation with Python

DataCamp, [Statement of Accomplishment #409,710](#)

Importing & Cleaning Data

DataCamp, [Statement of Accomplishment #409,699](#)

Outreach

Los más rápidos y los más furiosos (The Fastest and the Most Furious)

Community of Undergraduate Physics Students, Juárez Autonomous University of Tabasco
Tabasco, Mexico

Online talk
September 4, 2020

Una simulación de la física y la astrofísica (A Simulation of Physics and Astrophysics)

Community of Undergraduate Physics Students, Juárez Autonomous University of Tabasco
Tabasco, Mexico

Online talk
August 14, 2020

ANITA y la teoría de los universos paralelos (ANITA and the Theory of Parallel Universes)

Científicos Mexicanos en el Extranjero, mexiciencia.github.io/post/anita

Blog post
May 29, 2020

¿Qué es el modelo SIR? (What is the SIR Model?)

Científicos Mexicanos en el Extranjero, mexiciencia.github.io/post/modelo-sir

Blog post
May 25, 2020

Evolución del brote epidémico de COVID-19 (Evolution of the COVID-19 Epidemic Outbreak?)

April 5, 2020

Collaborator with the data analysis/modeling

Annual Department of Physics and Astronomy Poster Event

Department of Physics and Astronomy, Purdue University

West Lafayette, IN, USA

Posters (3) presentation

November 13, 2019

Post-Doc Panel Q&A: What Happens When we Complete our PhDs?

Department of Physics and Astronomy, Purdue University

West Lafayette, IN, USA

Panelist

April 10, 2019

Annual Department of Physics and Astronomy Poster Event

Department of Physics and Astronomy, Purdue University

West Lafayette, IN, USA

Poster presentation

November 14, 2018

¿Decía Einstein la verdad? (Was Einstein Telling the Truth?)

Facultad de Ciencias, Universidad Autónoma del Estado de México

Toluca, Mexico

Talk

March 11, 2009

Synergetic Activities

X Scientific Meeting of the Spanish Astronomical Society

Organizing contributor, 14–16 December, 2012

Valencia, Spain

Volunteering

Científicos Mexicanos en el Extranjero

Member & Co-Founder

Sep. 2019 – 2021

We are a group of Mexican scientists collaborating with Mexican research centers. We are committed with serving society and closing the gap between scientists and the public.

Homepage: <https://mexiciencia.github.io>

Other activities

Aug 2007– May 2009: Representative of the Physics students community at the Governing Council of the Faculty of Sciences of the Universidad Autónoma del Estado de México.
